[www.EuTeach.com](http://www.EuTeach.com)

# Adolescence

- A period of transition from childhood to adulthood
- A period of exploring life options
- A period with optimism, and energy,
- Limited knowledge, experience and immature cognitive capacity

# Needs

- Need of supportive environments at home
- in school,
- with friends,
- and regarding chronic illness and diseases

# EuTeach offers

- A teacher's manual
- Based on contemporary interactive pedagogy
- 8 general themes such as bio-  
psychosocial development
- 9 specific themes such as chronic illness,  
reproductive health, mental health  
substance use and abuse

# EuTeach offers **how to**

- Assess students' needs
- Plan sessions
- Assess satisfaction with course
- Use interactive techniques
- Plenty of case studies and scenarios to use
- Link with knowledge data bases such as [www.usc.adolescenthealth.edu](http://www.usc.adolescenthealth.edu)

# EuTeach offers

- Summer school in Lausanne
- TOT courses if demanded
