

European Academy of Paediatrics
Paediatric Section of U.E.M.S (European Union of Medical Specialists)

Dear Colleagues,

EAP represents all European paediatricians who pursue the fulfillment of the UN Convention on the Rights of the Children including the essential rights to protection, participation and provision also for refugee children.

As stated in "The Lancet" Editorial many times "The most basic principle that every child has a right to survive is simply not being met."

We also would like you to pay attention to the letter from the Association of the Hungarian Primary Paediatricians attached to this email.
We pledge that all paediatric societies follow where necessary follow their example.

EAP advocates for medical care without barriers, inequities and inequalities for all children in Europe.

Tom - President
